I guess he doesn't think men should beat their wives but if they do they damn well better make it anonymous. What a bad essay. They hid it because they wanted the \$. A solution to reputation laundering could be a "Money begrudgingly accepted from really bad people" plaque.

My head is still spinning from the spinning Lessig tried to conjure up for this interview. This guy is either hiding something or needs to wake the hell up.

@NellieBowles Now do the reputation laundering LOUIS FREEH did for Dershowitz

It's a very lucrative business model for him. He crafts a bogus narrative to get the high profile client out of the shits.
